

Purilon®

Purilon®

- A Hydrogel which offers gentle, fast, effective debridement and superior rehydrating properties

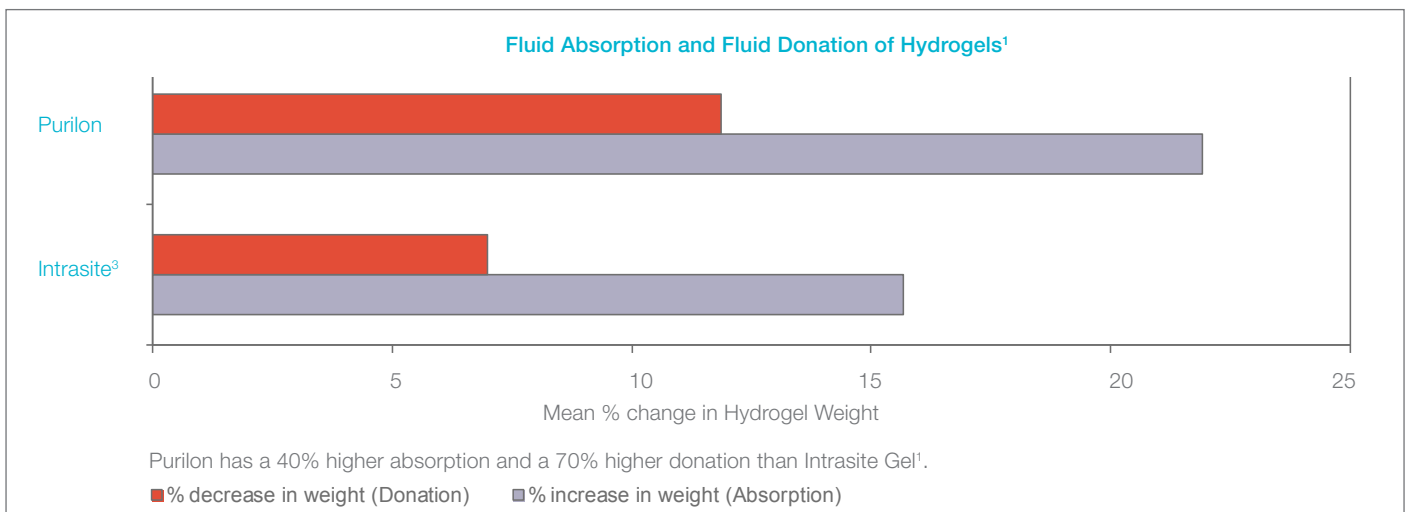

Purilon®

A Hydrogel which offers gentle, fast, effective debridement

Uniquely different:

- **Free from preservatives:**
An excellent & safe choice for preparing a wound for maggot therapy²
- **Superior absorption and donation capabilities¹:**
Offers effective and gentle debridement, without disrupting the patient
- **Good cohesion:**
Stays in place with less risk of maceration and leakage
- **Offers effective debridement:**
Used with Comfeel Plus Hydrocolloid to gently rehydrate necrotic tissue
- **Easy to use:**
The applicator ensures a controlled and easy application using just one hand
- **Wear time:**
3 days depending on wound type, exudate level & progression

On what types of wounds would I use Purilon ?

Purilon is indicated for the treatment of necrotic and sloughy wounds, such as:

- Leg ulcers
- Pressure ulcers
- Static dry wounds
- Effective throughout the healing process on low exuding, granulating and epithelialising wounds
- Non-infected diabetic foot ulcers
- 1st and 2nd degree burns

Purilon Hydrogel (without preservatives)
